Our Contract with You, The Reader	iii
Acknowledgements	xv
About the Author	xvii
How to Download the Files	xix
Section I: Getting Started	1
Chapter 1: What is OpenOffice.org?	3
What is open source software?	3
Where did OpenOffice.org come from?	3
What's included with OpenOffice.org?	3
Is OpenOffice.org really free?	4
Why should I consider OpenOffice.org?	4
Why should I stick with Microsoft Office?	4
What versions of OOO does this book cover?	5
Who is this book for?	5
What else should I know about this book?	5
What are those little pictures in the book?	7
How is this book organized?	7
Chapter 2: Installation and Configuration	9
How do I get OpenOffice.org?	9
How do I install OpenOffice.org?	11
What choices do I have when I install OpenOffice.org?	12
How do I install OpenOffice.org in a network or multiple user situation?	14
What does OpenOffice.org put on my computer?	16
How can I change what was installed?	16
How do I remove OpenOffice.org?	17
How do I upgrade when a new version is released?	17
Is OpenOffice.org one application or many?	17
What is QuickStarter?	18
Ready to go	19
Chapter 3: OpenOffice.org File Storage	21
Where does OpenOffice.org store my files?	21
How does OpenOffice.org store my files?	22
What type of files can OpenOffice.org read?	23
How do I share files with other applications, such as Microsoft Office?	24
Why have my Office files been converted to OpenOffice.org files?	25
Where are my OpenOffice.org settings saved?	26
What's next?	26

Chapter 4: The OpenOffice.org Interface	27
What does the OpenOffice.org interface look like?	27
How do I set things up the way I want them?	27
How do I make my configuration changes stick?	29
How do I set up custom keystrokes?	29
How do I customize the toolbars?	31
How do I dock and move the tools?	33
Why do some toolbar buttons have a little arrow?	35
What is the Navigator?	36
How do I search and replace?	38
How do I find paragraph breaks and tabs?	39
Why does Undo stop undo-ing after a while?	39
How do I track changes?	39
How do I compare documents?	42
Why does what I type get changed?	42
Why does a “light bulb” window appear now and then?	46
How do I check spelling and grammar?	47
What is AutoPilot?	48
What is the Gallery?	49
Summary	51
Chapter 5: Making Life Easier with Templates and Styles	53
What is a style?	53
What is the Stylist?	54
How do I use the styles provided?	55
How do I apply a style using the keyboard?	56
How do I change the existing styles and create new styles?	57
Editing styles directly	57
Creating new styles directly	58
Using the Stylist to create and edit styles	58
What is a template?	59
How do I use a template?	59
Can I use Office templates?	60
How do I create a new template?	61
How do I change the template used for new documents?	61
How do I open a template for editing?	62
How do I manage templates and styles?	62
Copying styles	62
Moving templates	63
Summary	63

Section II: Word Processing with Writer 65

Chapter 6: Creating Simple Documents 67

How do I start Writer?	67
What do I see when I first open Writer?	67
How do I control the way my document fills the window?	69
How do I create new documents?	69
How do I set default fonts?	69
How do I make the ruler available?	70
What the heck is the ruler measuring?	70
What's with the text that appears when I'm typing?	71
How do I format my text?	72
Formatting characters	73
Formatting paragraphs	73
Formatting pages	74
Formatting styles	75
How do I create subscripts and superscripts?	75
How do I turn off character formatting?	76
How do I set up indentation?	77
How do I leave white space between paragraphs?	78
How do I control the position of paragraphs?	78
How do I set tabs?	80
How do I right-align text?	81
How do I specify the kind of paper I'm using?	81
How do I set margins?	82
How do I create bulleted lists?	83
How do I create numbered lists?	86
How do I find out how long my document is?	88
How do I print my document?	89
How do I create a PDF from my document	91
Summary	91

Chapter 7: Dressing Up Documents 93

How do I put things like date and time into a document?	93
How do I insert the path and filename of the document?	94
How do I add page numbers?	94
How do I change the page numbers?	94
How do I get page headers and footers?	95
How do I change headers or footers in the middle of a document?	97
How do I add pictures to a document?	97
How do I put a table in a document?	99
How do I set column widths?	100
How do I change the height of a row?	102
How do I control the behavior of a table at a page break?	103
How do I make an irregular table?	103

How do I have more than one heading row?	104
How do I control the lines around and within a table?	104
How do I put multiple columns in a document?	105
How do I get my headings to show up in the Navigator?	108
How do I do a mail merge?	109
Setting up a data source	110
Creating the mail merge document	110
Doing the merge	111
Limiting records in a mail merge	112
Sorting merge results	113
How do I create envelopes?	113
Summary	117

Section III: Number Crunching with Calc **119**

Chapter 8: Creating Simple Spreadsheets **121**

How do I start Calc?	121
What do I see when I first open Calc?	121
How do I create new spreadsheets?	123
How do I enter data?	123
How do I edit data?	123
How do I enter a series of numbers quickly?	123
How do I enter formulas?	124
Using functions in formulas	125
Specifying ranges and multiple values for functions	128
Naming ranges	128
Referring to other worksheets	129
How do I format data?	130
Setting cell formats	130
Setting text orientation	132
Conditional formatting	133
How do I set column width?	135
How do I center a heading above a bunch of columns?	136
How do I move or copy cell contents using the mouse?	137
How do I copy the value of a cell rather than the formula?	137
How do I switch rows and columns?	137
How do I change the number of worksheets in a workbook?	138
How do I change a worksheet's name?	139
How do I move a worksheet within a workbook?	139
How do I print my spreadsheet?	139
How do I decide what gets printed?	141
How do I preview what will print?	142
Summary	142

Chapter 9: Database Manipulation with Calc	143
How do I create a database table in a spreadsheet?	143
How do I import data into a spreadsheet?	143
Importing from a database	144
Importing from a spreadsheet or web page	144
Importing text or dBase data	144
How do I sort the data?	146
How do I limit the data displayed?	147
How do I compute totals and subtotals for groups of records?	150
How do I restrict data to valid values?	151
How do I create a pivot table?	154
Manipulating a pivot table	159
Summary	161
Chapter 10: Working with Graphs and Charts	163
How do I create a graph?	163
What kinds of graphs can I make?	167
How do I change a graph?	168
How do I move a graph?	169
How do I change the size of a graph?	169
How do I change the type of graph?	169
How do I change the data in a graph?	170
How do I change a graph's main title?	170
How do I change the axis titles?	171
Is there an easier way to change the text for multiple titles?	171
How do I turn off all titles?	172
How do I change the legend?	172
How do I change the axes?	174
How do I control grid lines in my graph?	176
How do I give a graph a colored background?	177
How do I change the colors used to represent data?	178
How do I display the value for the data item?	179
Can I look at 3D graphs from another angle?	180
Summary	182
Section IV: Impressing with Impress	183
Chapter 11: Creating Simple Presentations	185
How do I start Impress?	185
What will I see when I first open Impress?	185
How do I create a new presentation?	187
How do I put stuff on a slide?	187
How do I add slides to my presentation?	188
How do I change the template for a presentation?	188
How do I see more than one slide at a time?	189

How do I add notes to my presentation?	192
How do I run my presentation?	193
How do I print my presentation?	194
Summary	196
Chapter 12: Presentations with Pizzazz	197
<hr/>	
How do I add graphics to my presentation?	197
Adding graphic files	197
Adding clip art	197
Adding drawings	198
Formatting images	199
How do I add transition effects to my presentation?	199
How do I control the timing of items on a slide?	201
How do I control the overall appearance of a presentation?	203
Changing slide appearance through styles	204
How do I control the format of speaker's notes in a presentation?	204
Can I keep many slides in a single presentation and show only those I want?	205
How do I make final tweaks to my presentation?	206
Summary	207
Section V: But Wait, There's More	209
Chapter 13: Creating Web Pages	211
<hr/>	
How do I start HTML Editor?	211
What do I see when I first open HTML Editor?	211
How do I create a new web page?	212
How do I enter text for my web page and format it?	212
Can I edit HTML directly?	213
How do I add hyperlinks?	213
Summary	215
Chapter 14: Creating Drawings	217
<hr/>	
How do I start Draw?	217
What will I see when I first open Draw?	217
How do I create new drawings?	218
What goes into a drawing?	218
How do I add text to a diagram?	220
Can I change the text?	221
Is there a quick way to add several of the same component?	221
How do I move an object?	221
How do I change the size of an object?	221
How do I format a drawing object?	221
How do I change the color inside a shape?	222
How do I change the lines around an object?	222

How do I format text?	223
How do I rotate an object?	225
Can I put one object on top of another?	226
What if the shape I want isn't listed?	228
Can I save my custom shapes in the Gallery?	229
Are there any tools to help me get things lined up right?	229
How do I use a drawing in another application?	232
What formats can I save my drawing in?	233
Summary	233
Chapter 15: Building Formulas	235
<hr/>	
How do I start Math?	235
What do I see when I first open Math?	235
How do I create new formulas?	235
How do I specify a formula?	236
How does the Selection window work?	237
How do I specify the operands?	238
Do I have to use the Selection window?	238
How do I specify summation with bounds?	239
Can I change the fonts?	240
How do I use the custom fonts?	241
How do I set font sizes?	241
How do I change the appearance of an item?	242
How do I control the spacing between elements?	242
How do I force extra space into a formula?	243
How do I put a formula into another document?	243
Summary	244
Chapter 16: Using Master Documents to Consolidate	245
<hr/>	
What is a master document?	245
Should I use a master document?	245
How do I create a master document?	246
How do I add sub-documents to a master document?	246
What goes where?	247
Why doesn't my page formatting stick?	247
How do I specify headers and footers?	247
Can I add text to the master document in between or after the sub-documents?	247
How do I start a sub-document on a new page?	248
How do I edit the sub-documents?	249
How do I edit a master document?	249
Can I change the styles used in a master document?	250
How do I incorporate existing documents into a master document?	250
Summary	250

Chapter 17: Managing Data with OpenOffice.org	253
How do I work with data in OpenOffice.org?	253
How do I make Oo see my data?	253
Can I create new data sources from scratch?	255
How do I add data to a new data source?	256
Can I modify data?	257
Can I sort data?	257
Can I show only some records?	258
How do I find a particular record?	258
Can I define subsets of my data?	260
How do I filter data in a query?	261
How do I sort query results?	263
Can I see what results a query will give?	263
Can I create data entry forms?	264
Can I create reports?	267
How do I use my data in OpenOffice.org?	271
Summary	271
Chapter 18: Forms, Macros, and Automation	273
How do I create a form where people can only enter data?	273
What controls are available?	274
How do I customize controls?	276
How do I attach a data source to a form?	282
How do I make something happen in my document?	283
How do I use the form?	284
What else can I do with forms?	284
Can I use macros to simplify repeated actions?	285
Can I use my Office macros in Oo?	285
How do I record a macro?	285
How do I use a macro?	286
How do I assign a keystroke to a macro?	287
How do I put a macro on a toolbar?	287
How do I create a macro other than recording it?	287
Can I automate OpenOffice.org from other applications?	291
Summary	292
Appendix: Resources	293
Where do I get documentation for OpenOffice.org?	293
Where do I get help online?	294
What else is available?	294
